

▶ GENERATES POSITIVE DYNAMICS WITHIN TEAMS

▶ DEVELOPS TEAM CREATIVITY, TEAM COHESION AND DECISION-MAKING CAPABILITIES IN A GROUP

Better teams

arteamstic™ is a team-building concept based on a creative and artistic approach. The workshop is facilitated by a Swiss artist, a professional painter with several years' business experience in a multinational corporation.

« An artistic experience designed to strengthen teams »

WORKSHOP PARTICULARS

Each team member contributes to the creation of a common artwork. Throughout the animation, the group has to make several decisions which will have a direct impact on the final artwork.

Guided by the artist, the group goes into the technical aspects of painting such as colour harmony, contrasts, composition, etc. No prior technical knowledge is required.

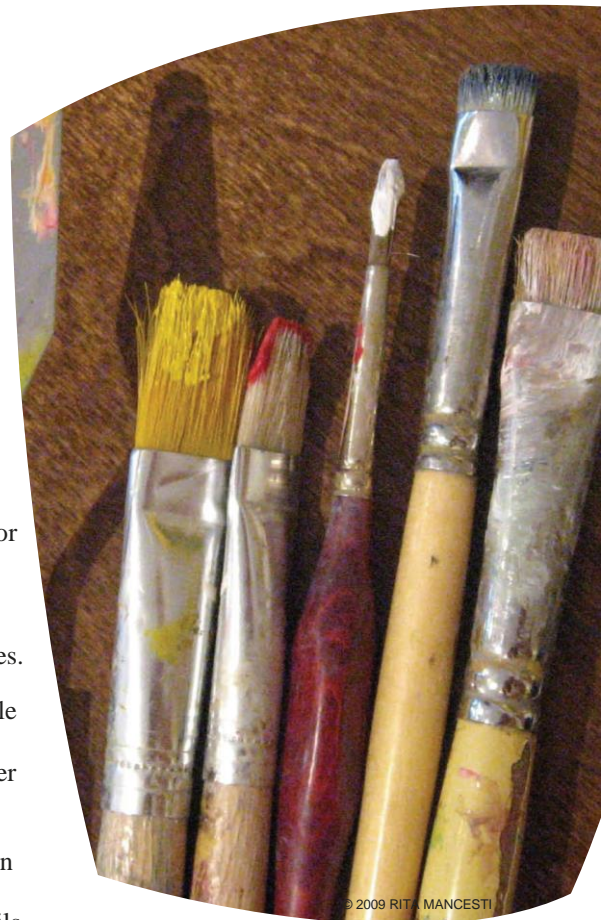

The painting remains property of the team. As a result, it acts as a visual and colourful reminder of a privileged moment spent together.

LOGISTICS

arteamstic™ comes to your premises or to any location of your choice and provides the painting and drawing material as well as the necessary protection for clothes, floors and tables.

The minimum duration for a 10-people workshop is 2 to 4 hours. A longer timeframe should be allowed for larger groups.

arteamstic™ can organise workshops in English or in French. If needed, the artist can also explain animation details to Italian or German speakers.

THE PARTICIPANTS WROTE

"Everyone in the team enjoyed it and found it a very useful and stimulating exercise. I think Rita has a nice balance in the course between the theoretical and the practical, and this is helped by her warm and friendly teaching style."

WWF team leader

"During our last WE Baby Care yearly event, Rita Mancesti from Arteamstic conducted with 150 employees a fantastic and different team workshop. This team building exercise was unanimously appreciated and is highly recommended to other business units."

P&G Baby Care Organization Team

"Very nice concept - comes together very nicely"

"Well-balanced and thoughtful session, very enjoyable."

"Very useful to reach team consensus."
